

SUEPHISTICATED WEDDING CAKES

I'm an artisan cake designer and sugar florist and I specialise in a truly bespoke service. I offer the highest quality ingredients and recipes that deliver on taste and wow factor.

Every element of every cake I make is created from scratch. The flavours are created by real, natural ingredients. They're never out of a bottle. I'm proud of my delicious curds, conserves and Italian meringue buttercream (smooth, not overly sweet or grainy). They create a sensational and unforgettable cake, every time.

So If you're looking for a cake for any occasion please get in touch. I have a lovely studio in Shedfield.
